

Ultrasound for Surgeons: The Basic Course, 2nd Edition CD-ROM

The American College of Surgeons and the National Ultrasound Faculty developed "Ultrasound for Surgeons: The Basic Course, 2nd Edition CD-ROM" for surgeons and surgical residents. The purpose of this CD-ROM is to provide the practicing surgeon and surgical resident with a basic core of education and training in ultrasound imaging as a foundation for specific clinical applications. The methods used to participate within the CD-ROM include: reading, viewing, interacting with clinical images, and the testing of acquired knowledge.

Intended Audience

Practicing general surgeons and residents-in-training.

Objectives

Upon successful completion of this educational program the learner will be able to:

- Explain the ACS Ultrasound Education Program
- Identify techniques and differentiate challenges associated with surgeon performed ultrasound
- Illustrate the possibilities and limitations of ultrasound in clinical applications
- Locate resources for getting started in surgeon performed ultrasound
- Develop enabling strategies to improve surgeon ultrasound skills

The American College of Surgeons is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians.

The American College of Surgeons designates this educational activity for a maximum of 4 *AMA PRA Category 1 Credits*TM. Physicians should only claim credit commensurate with the extent of their participation in the activity.
